Subject: RE: November LDMP

Hi Diane,

Franklin - Appeared new last month for Oxycodone. The Level II review is almost complete, Blaine got Frank's signature on the declaration and I am finishing up the survey questionnaire.

Gompers - Appeared new last month for Oxycodone only. Their purchases are consistent with these numbers and at month end, doses were only 11,700. This is a high volume and high walk-in store. They are located next to a hospital in Wheeling. I found no website affiliation for this account.

Herbert's - Appeared new this month for Hydrocodone. At month end doses totaled 19,032. I have interviewed Herbert's previously regarding their Oxycodone doses and many of these scripts can be attributed to local pain management clinics. I found Herbert's listed on www.pharmacytree.org, but there was very little information and no online script info, etc.

Med Fast Aliquippa - Appeared new this month for Oxycodone. Their purchases of this drug are consistent with the doses and at month end their doses totaled 11,321. The only website affiliation is www.medfast.com.

Med Fast New Castle - A Level II is in progress. I am working with Gene Cavacini to approach the owner of the Med Fast chain.

Troutman Drug - Appeared new this month for Hydrocodone. I have spoken with the owner previously regarding Oxycodone usage. The store has a moderate number of walk-ins and is located near several pain management clinics and pain management doctors. At month end, doses were 12,017 and were consistent with purchases. The only website affiliation I found was Health Mart.

Please let me know if you need additional information on these accounts or if a Level II review is necessary.

Thanks,
 Alex

I highlighted the new accounts/items for this month (**NO**). I also highlighted any month total over 18,000. The threshold is 8000. Level II reviews are in progress for Mace's, Franklin and Med Fast – New Castle.

Thanks

Diane Martin
